8. Summary of new results of the thesis

8.1. New academic and theoretical contributions

- Provide more theoretical basis for the development of the private economy in agriculture and the content, form, role and movement trend of the private economy in agriculture associated with the socialist-oriented market economy in the country. Laos; The thesis topic will provide readers to identify the criteria affecting and affecting the development of private economy in agriculture in a province.

- Give a comprehensive overview of the development status of the private sector in agriculture in Vientiane province in the period of 2015 - 2021, with specific achievements, limitations and causes of the situation; identify the problems posed by the development of the private sector in agriculture in Vientiane province.

- Understanding the new context creates directions and solutions to be implemented to develop the private sector in agriculture in Vientiane province by 2030.

8.2. New points drawn from research and survey results

- Overview of research works directly related to the topic of the thesis;

- Building the theoretical and practical basis of the development of private economy in agriculture in Vientiane province, Lao PDR.

- Analysis of the current state of agribusiness in agriculture in Vientiane province in the period of 2015-2021, assessing the achieved results, limitations and problems raised from the above situation.

- Assess the context, propose orientations, goals and basic solutions for the development of the private sector in agriculture in Vientiane province by 2030. In which, the thesis proposes 3 groups of solutions, specifically: 1) Solution group methods to promote the role of the State and all levels of government in Vientiane province; 2) Group of solutions to overcome the limitations of the private sector in agriculture in Vientiane province; 3) Group of solutions for the subjects of the private sector development in agriculture in Vientiane province. Each group of solutions has an important position and role in the development of agro-industry , in order to promote the endogenous strength of agriculture , of the agro- industry in Vientiane province, it is necessary to implement both synchronously and effectively. 3 groups of solutions. Do not overestimate, or underestimate a group of solutions, because each group goes into exploiting each aspect, each aspect of the development of the private economy in agriculture . Therefore, it is necessary to have a comprehensive view and develop in a system of solutions towards the sustainable development of the private sector in agriculture in Vientiane in the coming time.
